## SPOTLIGHT ON A GUEST TEACHER

Doeshae, a 2nd grader in Ms. Moore's class, did an amazing job as "Art Teacher" for the day! She taught her classmates about communicating with one of the Elements of Art, Texture.

Doeshae, dressed for success in her blue blazer, impressively explained how to visually communicate different textures by using different directional lines. She then checked for understanding by calling on her classmates! **JOB WELL DONE DOESHAE !!!** You were a wonderful art teacher!

Well, Stonewall Tell said goodbye yesterday to our very own future 2026 Nobel Prize winner, Jaden Jackson. Jaden hopes to find a cure for ALS, Lou Gehrig's disease. We wish him well and much success as he pursues this noble challenge of unlocking the cure to this terrible disease! We will miss you and your creative mind !!! Fly high Jaden!!

Chelsea in Ms. Goolsby's 4th gr. has completed phase 1 in designing her Picasso "Blue Period" self portrait. But what has totally blown me away is her completed written interpretation of the sad event that happened to her! Very eloquent, touching, and deeply personal ! Look out for her finished portrait and interpretation to be displayed soon . Beautiful work Chelsea!!

Jayla in Mrs. Hardy-Martin's 4th gr. class has captured the essence of communicating "sadness" by skillfully blending several values (shades) of blue a la Pablo Picasso. Her proportion is excellent. Let's see what Jayla writes about as she interprets a sad event in her life or a sad event that has happened in the world!

Kameron (above) and Elijah (helicopter below) have both demonstrated exceptional observational skills as they are learning to “see” and then “draw” directional lines.

Specifically, 1st graders are learning about Contour lines as they learn how to “see” and draw this type of line first. Kameron chose to personalize his dolphin by adding a “baseball cap” necklace around his neck! Elijah chose to pick a more advanced object to draw, a helicopter! Wow.....these first graders sure can draw!!!! Be sure to ask them the secret to drawing when you see them!!
